March 10, 2023

Dear President Xi,

Today the U.S. House of Representatives followed the Senate in unanimously adopting my bill to declassify U.S. government intelligence on the origins of the COVID virus. I know you are keenly interested in this bill—your own Communist officials have written to my office demanding we renounce it, in their usual lecturing, idiotic style.

But the bill will soon be law—unless you can convince President Biden to veto it. Time is up. Come clean about your role in spreading COVID to the world.

Very sincerely yours,

Josh Hawley
United States Senator
